North Reading Feb. 11. 1842 -

Dear Mother -

you will recollect that I promised
to return the papers which you had in your
possession as the scribe of the Council held in
this place - This is to inform you that I have
called at your office twice with said documents
in my pocket, and found you absent - I may
not take pains to call again for that purpose:
but be assured the papers are in safe keeping,
and at your disposal if you should see fit to
call on me for them - I presume however that
they will be of no further public use -

Yours affectionately bro -

John Orcutt -
